eAutorescue road service technicians will assist Members in installing spare tires. If an inflated spare is not available or the existing spare is deemed unsafe by the technician, the Member may elect to have the vehicle towed (subject to the towing terms and conditions below). Tire repair is not covered by eAutorescue Emergency Road Service.

The Member must be present at the time of service, with a valid digital Membership card and matching photo identification to be eligible for eAutorescue Emergency Road Services. Members without proof of Membership or identification will not be eligible for eAutorescue Road Service and will be financially responsible for service.

Certain restrictions apply to all services, including the availability of services in all locations. Unless as otherwise specified, the terms and conditions apply to each Membership year.

Safety of Members and eAutorescue road service technicians is important to eAutorescue. The technician may assess the situation for safety, which may impact how or if certain services will be available for each situation. eAutorescue reserves the right to provide only such services as is deemed safe and within the normal course of servicing, including but not limited to using ordinary servicing equipment and servicing vehicles that have not been loaded, altered from their original manufacture or custom manufactured in a manner that interferes with the safe and legal rendering of service.

eAutorescue Emergency Road Service is provided to help our Members get back on the road. All vehicles to be serviced **must be** registered for highway or street use to be eligible for services. Vehicles that are untagged, or not otherwise legally drivable (other than vehicles involved in an accident that renders it un-drivable) will not be eligible for services. eAutorescue Emergency Road Service will not be rendered if services are used as a substitute for regular maintenance. Tows will not be provided for moving a vehicle from one residence to another (unless directly related to the repair of such vehicle) or from a road to a driveway. Fuel delivery is available only for vehicles that are out of fuel. Vehicles will not be towed to/from a salvage yard. Service will not be provided for the purpose of transporting vehicles in connection with a purchase, sale, auction, car show exhibition, donation, or relocation or similar situation. Dismantled, stored or abandoned vehicles or those purchased in an inoperable condition will not be eligible for service. Tows are provided from impound lots provided that the Member's car is unable to be driven and otherwise fit for towing, and the Member pays all impound fees.

In the event the vehicle is being serviced due to an accident, the Member is required to follow all local, state, and federal laws for reporting of the accident prior to service being rendered.

Additionally, services are not provided to: unattended vehicles, unless the Member is unable to remain with the vehicle due to injury or safety reasons; vehicles that are on inaccessible or barricaded areas (including but not limited to yards, beaches, fields); or vehicles unlawfully driven beyond chain controls areas or other areas that is dangerous or inadvisable for travel. Also, there may be "force majeure" events that may directly or indirectly delay, hinder or prevent eAutorescue technicians from performing services for our Members. We shall not be liable or responsible to you, nor be deemed to have defaulted under or breached these Membership Terms and Conditions, for any failure or delay in fulfilling or performing any term herein, when and to the extent such failure or delay is caused by or results from the following force majeure events ("Force Majeure Events"): (a) acts of God; (b) flood, fire, earthquake or explosion; (c) war, invasion, hostilities (whether war is declared or not), terrorist threats or acts, riot or other civil unrest; (d) government order or law; (e) actions, embargoes or blockades in effect on or after the date of these Membership Terms and Conditions; (f) action by any governmental authority; (g) national or regional emergency; (h) strikes, labor stoppages or slowdowns or other industrial disturbances; (i) shortage of adequate power or transportation facilities; (j) pandemics, and (k) other similar events beyond our reasonable control. eAutorescue is not obligated to perform services in the event of such force majeure event.

Members are responsible for any fees for services that are not covered by the stated coverages under the Membership. For certain covered services, Members may need to pay the technician (at the time of service) and submit for reimbursement.

eAutorescue reserves the right to seek reimbursement, including any reasonable administrative or processing fees, from Members for any services provided for which the Member was not eligible or entitled, or for which Member was obligated to pay at time of service, including non-sufficient funds (NSF) checks.

While eAutorescue strives to provide prompt and efficient service at all times, note that:

- Delays are sometimes unavoidable due to weather, traffic or road conditions, availability, or unusual service demands. Additionally, longer-distance tows, after hours service requests, and service requests in certain areas may be subject to longer delays.
- eAutorescue cannot and does not guarantee any response times, and will not be liable for any occurrence that arises during any such delay. Although eAutorescue holds its network providers to high standards of service, eAutorescue cannot control the manner in which independent service providers render services. eAutorescue will not be liable for their misconduct, negligence or other acts or omissions. eAutorescue will attempt to resolve any Members' vehicle repair and damage complaints resulting from Emergency Road Service provided by our service providers. Member complaints should be reported as soon as possible and before additional repairs are made. Failure to do so may impair or otherwise limit our ability to assist.
- It is up to the Member to assure that they remain in a safe location while waiting for a service vehicle. eAutorescue cannot and does not monitor road, traffic or other conditions that may impact your safety, and which may vary and change. If you advise us of any safety concerns at the time of your call for service, we will offer you the option of having an appropriate law enforcement/public safety entity be dispatched to your location. eAutorescue will not be liable for any occurrence as a result of any road, traffic or other conditions that contribute to or otherwise impact service times, or any occurrence resulting from the negligence of any third parties. If at any time you feel that conditions are such that you feel your safety is impaired while waiting for service, please immediately call 911.

When calling eAutorescue Emergency Road Service, a Member will be provided the option to opt-in to allow eAutorescue identify the Member's location for purposes of dispatching services. To understand more about our privacy practices, please review our [privacy policy](#).

Membership, Communication, Reimbursements and Other Policies

Membership Eligibility

The Primary Member is an individual with whom eAutorescue has established the membership and whose name appears first on the membership record (“Primary Member”). Primary Members must be at least 21 years old. One (1) Primary Member is allowed per Membership account. An individual will be a Member on only one Membership at a time. A Primary Member may add up to one (1) Associate Member who is a spouse or resident adult and seven (7) Dependent Associate Members. An “Associate Member” is another adult person (which can be a spouse) sharing the same residence as one on file for the Primary Member. A “Dependent Associate Member” is a child or legal ward of the Primary Member, having the same residence as the one on file for the Primary Member (provided that this residency requirement does not apply to a Dependent Associate Member who is away at school). All applications for, and renewals of, Membership are subject to acceptance by eAutorescue.

eAutorescue Emergency Road Service Benefit Effective Period

eAutorescue Emergency Road Service benefits become effective 48 hours after purchasing a new Primary Membership. For new Memberships only, the 48-hour waiting period may be waived if the Member (either a Primary or Associate) elects to pay a non-refundable one-time fee.

Membership Renewal Policy

We will send you a renewal notice before your Membership expires, and your renewal dues are payable on the day your Membership expires. Upon expiration, Members are granted a “Temporary Waiver Period” up to 30 days, during which time you can pay your renewal fee and maintain your original Membership inception year and renewal date. During this Temporary Waiver Period, we will continue to make Membership services available to you. However, if you request Emergency Road Service during this Temporary Waiver Period, then you are obligated to pay your outstanding renewal fee at the time of such service. If you pay the renewal fee within the Temporary Waiver Period, your Membership will continue uninterrupted, and no additional fees will apply.

You must notify us if you'd like to cancel your Membership. If you elect to cancel your Membership, or let it lapse at the end of the Temporary Waiver Period, your Membership will be deemed terminated as of such date. If you later decide to rejoin eAutorescue, you will need to purchase a new Membership, and that Membership will have a new inception year and renewal date as of the new purchase date. If you renew your Membership after the Temporary Waiver Period, eAutorescue Emergency Road Service benefits become effective 48 hours after the purchase of your new Membership, and all other terms and conditions applicable to a new Membership will apply.
